Applicants: Robert J. Sicurelli Jr. and Samuel Masyr
Serial. No.: 09/990,932
Filed: November 21, 2001
Art Unit: 3732
Examiner: John J. Wilson
Title: Flexible Post In A Dental Post and Core
System

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Amendment In Response To First Office Action

This is in response to the Office Action dated July 12, 2005 in the above identified Request for Continued Examination (RCE) application.

The Commissioner is authorized to charge any fees (small entity) associated with this communication to the undersigned's Deposit Account number 23-0120. Please extend the time to respond one month to Monday, November 14, 2005.

Please amend the application as follows:

claims would be allowable along with ~~their~~ common parent claim and any intervening claims.

The Examiner has taken the position that "the term prefabricated is merely defining a method of use and/or a method of the time at which a process of making step is performed, and therefore, is met by the shown structure of the prior art". Applicant respectfully disagrees with the Examiner on this. When a dental reinforcement post is assembled in situ, it is not a stand alone element because it intimately is formed as part of the tooth. That is, it cannot be thought of as a separate entity. When an object is prefabricated, however, it is a stand alone member, which is what is being claimed in this application. Therefore, the use of the term "prefabricated" in a claim (in this art) is not something that can be read on a dental post formed in situ. It is thus believed that weight in the claims should be given to this expression.

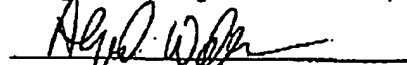

For the reasons given above, it is believed that all of the claims in their present form are drawn to patentable subject matter and should be allowed.

The Examiner is requested to call the undersigned if additional changes are required to obtain allowance.

A favorable action is solicited.

Dated: Nov. 14, 2005

Respectfully submitted,

Alfred M. Walker
